STUDENTS' WELFARE POLICY, 2022

FOREWORD

A College is a place where students advance themselves academically as well as socially. The two aspects are mutually reinforcing; knowledge enables one to understand himself/herself, those around him/her and the world. The College environment should therefore be designed in such a way that it fosters academic and social development of students. This dual responsibility should be preciously balanced to nurture educated, disciplined, caring, ethical and responsible people during and after studies. Bandari College is committed to create such an environment through its governance instruments.

Student welfare is a broad issue that cannot be fully addressed in one document. Almost all the governing instruments pertaining to student affairs contain components of welfare. This Policy is not meant to supersede the other instruments rather to consolidate and expand on the existing provisions. The Policy should therefore be read in conjunction with other relevant instruments of the College.

The Policy identifies student welfare issues, states the strategies for implementation and creates responsibilities to ensure the Policy delivers the expected outcome.

I call upon all who will be involved in implementing this Policy to play their roles honestly, responsibly, and objectively for the betterment of our College and the Nation at large.

Dr. Lufunyo S. Hussein
Principal

CHAPTER ONE

INTRODUCTION

1.1 Establishment

The history of Bandari College (BC) can be traced to the defunct East Africa Harbours Corporation which had a subsidiary company called East Africa Cargo Handling Services Limited. BC then conducted port training activities in Tanga and Dar es Salaam (Sokoine Drive) offering clerical courses for port employees, i.e., clerical checkers "C", "B" and "A".

After the breakup of the East African Community in 1977, Tanzania Harbours Authority (THA) Act, 1977 was passed. THA Act created Tanzania Harbours Authority mandated among others to control and manage seaports in mainland Tanzania. THA Act was later repealed and replaced by the Ports Act, 2004 (ACT) (as amended) which created Tanzania Ports Authority (TPA) which among other is mandated to control and manage sea and lake ports in mainland Tanzania.

As a training institution, BC is owned by TPA. The functions of BC as a training institution is set out in Section 12(1) (k) of the Act, where TPA has been mandated to undertake *"promotion of training, research, and development in the fields of marine and port services and facilities in collaboration with universities and other educational institutions for the promotion of technical and operations education and training in the fields of marine and port related services and facilities"*. BC core functions are therefore to provide technical training, applied research, and consultancy services in the field of marine, port and port related services and facilities.

BC was registered by NACTVET (then NACTE) in 2004 with registration number REG/EOS/018. BC continued to provide training until the college finally obtained full accreditation in July, 2017 whereby three (3) Departments of "Transport, Cargo and Marine Operations", "Engineering" and "Business Administration and Management" were recognized and accredited.

BC offers competence-based education in its programmes with a flexible mode of delivery and assessments at Basic Technician (NTA level 4), Technician (NTA level 5) and Ordinary Diploma (NTA level 6) certificates. It also offers a wide range of short courses at its campus as well as tailor made courses as need arises.

1.2 Vision

To be the Centre of excellence in training, research and consultancy in port management and maritime logistics in Sub-Saharan Africa.

1.3 Mission

To offer competence based training, undertake applied research, and provide consultancy services in port management and maritime logistics in response to current and future needs of the maritime transport subsector.
